DETAILED ACTION

1. This Office Action is in response to the Appeal Brief filed on July 20, 2005.
2. Claim 44-63 are pending in the application.
3. Claims 44-63 are allowed and renumbered as 1-20, respectively.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The prior arts of record do not teach nor suggest, either alone or in combination, all the limitations of the amended claims of the current invention (claims 44, 56 and 61); particularly a wireless communications circuit comprising a serial interface controller of a processor directly connected to the non-volatile memory by a serial address and data line, and connected to the volatile memory by parallel address and data lines. The serial interface controller configured to read serial data from the (serial) non-volatile memory, to convert at least a portion of the serial data to the parallel data, and to store the parallel data in the volatile memory; and a read only memory in a processing unit for storing read instructions, the read instructions for instructing the serial instruction controller to read the serial data from the non-volatile memory upon a boot up of the wireless communications circuit.

Claims 45-55, 57-60 and 62-63 further limit the allowable independent claims. These claims are therefore allowable for the same reason as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hetul Patel whose telephone number is 571-272-4184. The examiner can normally be reached on M-F 8-4:30.
